
CAPABILITIES STATEMENT

Management Consulting | Strategic Planning & Facilitation | Training | Performance Optimization

GPS BUSINESS GROUP (GPS) provides Management Consulting, Strategic Planning & Facilitation, Training, and Performance Optimization services, improving the effectiveness and results for clients and their leaders across the enterprise. We serve commercial, not-for-profit, and government organizations. Our Consulting services have been proven to streamline the process of results achievement for clients across the globe, focusing on skills enhancement, mobilizing the right people, and helping organizations improve their performance.

As a Veteran Owned Small Business (VBE) and Small Business Enterprise (SBE), GPS is committed to excellence and creating innovative and flexible solutions for State and Federal clients.

What sets GPS apart from the competition?

Our extensive international experience in numerous industries, service with the U.S. Department of Defense, and broad base of business expertise has proven to help business leaders grow revenue through innovative strategies and battle tested execution plans. Our client work leads to increased profits and cash flow, fueling increased market share and company valuation.

Business leaders must continually look outside their own team for market trends and opportunities. We provide a broad view of unfolding dynamics because of our global and diverse reach. The marketplace demands the ability to think and act using knowledge and experience. Our team has served thousands of clients worldwide, and brings a unique, innovative capability set.

Core Capabilities

Our team of business professionals analyze, research, design and implement solutions in the areas of:

- Accelerating processes that produce or enable innovation
- Changing habits to improve creativity and innovation
- Collaborating to engage better thinking, leveraging enhanced brainpower
- Creating new products, services & experiences
- Designing Innovation Development Plans that continuously improve innovative thought
- Enhancing teamwork & collaboration
- Improving performance by using advanced tools & techniques
- Minimizing risks, barriers, and obstacles to innovation
- Optimize the whole-brain by applying strategies based on proven neuroscience models
